

ES21

SPIN CENTRAL

Controlling spin rates amongst a batch of similar wedge shots is one of the most significant factors in building an effective short game. The ES21 wedges make that a reality by incorporating a higher, more central sweet spot and stable design – not just elevating spin, but maintaining it shot for shot. Made possible by a multi-piece stainless steel construction and Grain Flow Forged face packed into a versatile high toe profile with surprisingly narrow top line.

We've taken a very Mizuno type approach to the ES21 by keeping the top line very sleek – despite the technology inside. Our testing showed that there's a lot of good golfers out there who will be surprised at the gains they could make by having more predictable spin numbers.

Chris Voshall, Product Manager

ES21 WEDGE SPECIFICATION

	#54	#54 WS	#56	#56 WS	#58	#58 WS	#60	#60 WS
Loft Range	54°	54°	56°	56°	58°	58°	60°	60°
Lie	63°	63°	63°	63°	63°	63°	63°	63°
Bounce	8°	12°	10°	14°	8°	12°	6°	10°
Length	35.25"	35.25"	35.25"	35.25"	35.25"	35.25"	35.25"	35.25"
WS (Wide Sole)							Dexterity: RH only	

PREDICTABLE & CONSISTENT: Hollow body stainless steel 431 construction creates a higher, deeper CG and more vertical gear effect.

SPIN CENTRAL: A perfectly centred sweet spot is easier to hit consistently – ensuring a squarer strike, longer contact and higher spin.

HIGH TOE & LOW HEEL: Incredibly stable on open face, floated shots.

QUAD-CUT GROOVES: Ultra precise CNC Milled grooves cut into durable Grain Flow Forged Boron infused steel

WET WEATHER PERFORMANCE: Hydroflow Micro Grooves are vertically etched to release moisture and reduce spin drop off.

STANDARD OR WIDE SOLE OPTION: Options for both amateurs and elite players looking for more spin consistency.
