Full Colour Display with Responsive Touch Screen

The easy-to-read 1.3" full colour TFT-LCD display shows important course information including distances to the front/centre/back green, hazards, pin placement and hole layout. The zoom in and out function enables you to get a better view around the green including seeing your location you can see your distance from the pin and any hazards on the course. The aimW11 provides all the information you need when planning your next shot making this the perfect companion for any golfer.

"The new distance measuring feature on the watch is great, basically allows you to mark a start and endpoint which is great for measuring shot distances."

Shot Distance

With the added shot distance measurement you can track your shot distance and performance of every hole with precision.

"The new distance measuring feature on the watch is great, basically allows you to mark a start and endpoint which is great for measuring shot distances..."
